1. Préstamos Hipotecarios.

3. Falta de pago por deudor hipotecario.

La entidad emisora no asume responsabilidad alguna por el impago de los deudores hipotecarios ni garantiza directa o indirectamente el buen fin de la operación, ni otorga garantías o avales ni incurrirá en pactos de recompra de los Certificados de Transmisión de Hipoteca, a excepción de las previsiones para la sustitución de los Certificados de Transmisión de Hipoteca contenidas en la Escritura de Constitución.

La ejecución de los Préstamos Hipotecarios corresponde a la entidad emisora y al titular del Certificado de Transmisión de Hipoteca en los términos establecidos en el artículo 66 del Real Decreto 685/1982 en redacción dada por el Real Decreto 1289/1991.

Sin perjuicio de lo anterior, el titular del Certificado de Transmisión de Hipoteca tendrá acción ejecutiva contra la entidad emisora para la efectividad de los vencimientos del mismo por principal, intereses y demás conceptos, siempre que el incumplimiento de la obligación no sea consecuencia de la falta de pago del deudor del Préstamo Hipotecario.

4. Custodia y administración.

De acuerdo con lo previsto en el artículo 61.3 del Real Decreto 685/1982 en redacción dada por el Real Decreto 1289/1991, la entidad emisora conserva la custodia y administración de los Préstamos Hipotecarios y vendrá obligada a realizar cuantos actos sean necesarios para la efectividad y buen fin de los mismos.

La novación de los Préstamos Hipotecarios cuando fuera consentida por el partícipe, afectará a los Certificados de Transmisión de Hipoteca y a su titular, según lo establecido en la Escritura de Constitución.

5. Transmisión de los Certificados de Transmisión de Hipoteca.

La transmisión y tenencia de los Certificados de Transmisión de Hipoteca representados en el presente título múltiple está limitada a inversores institucionales o profesionales, no pudiendo ser adquiridas por el público no especializado.

Los titulares de los Certificados de Transmisión de Hipoteca deberán notificar a la entidad emisora las trasferencias de los mismos, así como los cambios de domicilio, a efectos de la inscripción de dichos datos en el Libro especial a que se refiere el artículo 67 del Real Decreto 685/1982 en redacción dada por el Real Decreto 1289/1991. El adquirente deberá también indicar a la entidad emisora una cuenta de pago.

Ninguna responsabilidad será imputable a la entidad emisora que efectúe las notificaciones o los pagos correspondientes a la persona que figura en sus libros como último titular del Certificado de Transmisión de Hipoteca en el domicilio de dicho titular que conste en ellos.

6. Otras reglas.

En caso de destrucción, sustracción, pérdida o extravío del presente título se estará a lo dispuesto en el artículo 56 de Real Decreto 685/1982.

El titular de los Certificados de Transmisión de Hipoteca tendrá derecho a solicitar de la entidad emisora la emisión de nuevos títulos unitarios o múltiples representativos de uno o varios Certificados de Transmisión de Hipoteca de los representados por el presente título múltiple, que le serán canjeados por éste.

La suscripción o adquisición del Certificado de Transmisión de Hipoteca presupone el conocimiento de todas las características e implica para el suscriptor o adquirente la aceptación plena que resulta del mismo. En particular, supone prestación de su consentimiento para la aplicación de lo previsto en los números 3 y 4.

En lo no consignado específicamente en las condiciones y características de los Certificados de Transmisión de Hipoteca recogidas en este título, se estará a lo establecido en la Escritura de Constitución, en las escrituras de los Préstamos Hipotecarios y en la normativa aplicable.

Método de creación de los activos.

Los préstamos hipotecarios seleccionados para su cesión al Fondo han sido concedidos por BBVA siguiendo sus procedimientos habituales de análisis y valoración del riesgo crediticio para la concesión de préstamos hipotecarios a personas físicas. Los procedimientos vigentes de BBVA se describen a continuación:

1. Introducción.

La banca minorista del BBVA es el área del Grupo que gestiona los negocios relacionados con los clientes particulares, comercios y pequeñas y medianas empresas. Dentro de la Banca Minorista está la Banca Comercial, que gestiona el negocio procedente de los segmentos de particulares, comercios y pequeñas empresas.

Canales de originación.

La banca comercial cuenta con 3.362 oficinas de ámbito nacional, dentro de las cuáles se dan ciertas especializaciones según detalle:

- 630 oficinas de entorno negocios
- 325 oficinas de entorno rural

Para conseguir la mejor aproximación posible a este amplio y heterogéneo colectivo, existen 7 direcciones territoriales con un ámbito de negocio concreto y con un responsable de promoción de particulares que coordina, impulsa y apoya las diferentes acciones y gestiones prioritarias de su entorno.

2. Procesos de evaluación.

2.1 Sistema de evaluación del riesgo económico: *Scoring* reactivo

Basado en información sociodemográfica, laboral y económica, facilitada por el cliente y los intervinientes de la operación (garantes, si los hubiera), se evalúa el perfil de riesgos de la operación solicitada.

- Positivo: Perfil favorable de los solicitantes /operación.
- Duda: Puntos débiles en titulares y/o de la operación.
- Negativo: Tiene perfiles de riesgo más inestables.

Además, el sistema relaciona el dictamen del *scoring* con las políticas de riesgo y filtros tanto internos como externos para emitir un dictamen final. Así, se analizan las principales variables:

- La capacidad de pago de la unidad familiar
- El balance de caja es la diferencia entre ingresos y gastos mensuales.
- Los ingresos y gastos declarados y estimados
- La cobertura que representa económicamente el inmueble frente a una posible ejecución.

Una vez analizada la operación se emite un dictamen final automático que sirve de apoyo a la toma de decisión de acuerdo con la delegación de facultades del gestor/analista y que puede ser:

- Positivo: cumple con criterios de admisión de riesgos. (Autorizar la operación)
- Duda: filtros leves de morosidad (Denegar la operación si la oficina lo cree conveniente)
- Negativo: filtros preocupantes. (Envío a la dirección territorial)

2.2 Variables empleadas para establecer el *Scoring* reactivo.

Detalle de las variables más significativas utilizadas en el proceso de evaluación del *Scoring* reactivo:

OPERACIÓN	PERSONALES	SOCIODEMOGRÁFICOS	PROFESIONALES
Destino	Edad	País de residencia	Trabajadores por cuenta ajena
Porcentaje de financiación	Estado civil	Residencia habitual	Trabajadores por cuenta propia
Plazo	Personas a su cargo	Código postal	Económicos y patrimoniales

3. Procesos de seguimiento del riesgo

El seguimiento del riesgo de impago se analiza en tres fases que a continuación se describen.

Cliente

Se contacta con la sucursal propietaria de la inversión para que comunique al cliente su situación morosa. También a través de la auditoria interna se informa tanto de las deficiencias en el marcaje de las operaciones como en la peligrosidad de determinados clientes y oficinas, los cuales son seguidos por los jefes de seguimiento de cada dirección territorial

Además centralizadamente se envían cartas de reclamación de deuda así como la reclamación de las cuotas pendientes mediante llamadas telefónicas por una empresa de servicios.

Operaciones cedidas por agentes de la propiedad inmobiliaria (APIS)

Mensualmente se revisan aquellos prescriptores con altas tasas de morosidad. Se cruzan semestralmente APIS con los diferentes ficheros de calidad que BBVA posee al objeto para ver su evolución particular.

Oficinas – seguimientos estadísticos y otros seguimientos

Mensualmente se obtiene la evolución en ratios de morosidad de oficinas / zonas / territoriales, ratios por LTV contratadas y tipologías de los colectivos morosos, así como la revisión de la bondad de los datos marcados en el *scoring*.

Las conclusiones, resultados y planes de acción, se comentan mensualmente en los comités de seguimiento del riesgo.

Se realizan muestreos para contrastar en el momento de la contratación que el valor de los inmuebles hipotecados se ajustan al mercado, asimismo las tasadoras tienen que estar homologadas por el Banco de España, etc.

4. Procesos de gestión de la morosidad

Las acciones recuperatorias en BBVA se realizan, para las diferentes situaciones, a través de las aplicaciones informáticas y centros destinados para dicho fin.

Las fases que comprenden este proceso son:

Esquema recuperatorio

El proceso recuperatorio se apoya en las siguientes herramientas:

- Contabilización de la situación de mora: aplicación mora/fallidos

  Gestiona la contabilidad de todos los asuntos que, de acuerdo con la Circular del Banco de España 4/2004 de 22 de diciembre de 2004, tengan la consideración de activos dudosos.

- Agenda de gestión recuperatoria

  Herramienta diseñada para facilitar el impulso de la gestión recuperatoria, el seguimiento y control de los asuntos calificados como activos dudosos/fallidos.

  Permite:

  - Conocer dónde se encuentra la gestión de un asunto/procedimiento
  - Actualizar las gestiones realizadas para cada asunto/procedimiento
  - Hacer carteras de gestión personalizadas
  - Activar un sistema de alerta
  - Consulta de movimientos contables

  Se nutre de información de la aplicación de mora/fallidos y cede información al centro de información.

  La agenda se compone de diferentes módulos entre los que destacan:

  - Acuerdos de pago: Acuerdos de pagos tanto extrajudiciales como judiciales.

- Telegramas: Envío y contabilización automática de telegramas de reclamación
- Venta/Cesión de créditos
- Mantenimiento de bienes: Bienes tomados en garantía de las operaciones
- Anticipos Procurador: Gastos del procedimiento realizados por el procurador
- Menú de alertas para las situaciones gestionadas
- Extranet: acceso de agentes externos, para consulta y actualización de los expedientes. Incluye un sistema de alertas automáticas.

- Centro de información

  Recoge información cedida por la agencia de gestión recuperatoria (mora y a procedimientos judiciales). Aporta resúmenes estadísticos e inventarios de cuentas, provee alertas e informa tanto diaria como mensualmente.

Fase recuperatoria precontenciosa

Es una gestión muy personalizada donde el Gestor de Recuperaciones está en contacto con el deudor.

Circuito de gestión prejudicial para las entradas en mora total de los préstamos hipotecarios:

- ENTRADA EN MORA:
  - Entrada en mora (cuatro cuotas mensuales impagadas) la aplicación envía a todos los titulares y garantes informados la carta de entrada y una carta ultimátum.
  - Fecha de próxima gestión: 1 mes
- AL MES DE LA ENTRADA (cinco cuotas impagadas):
  - Si ha ingresado al menos una cuota integra se plantea un plan de pagos al cliente.
  - De lo contrario se notifica el hecho a todos los titulares y garantes
  - Fecha de próxima gestión: 1 mes.
- AL SEGUNDO MES DE LA ENTRADA EN MORA (seis cuotas impagadas):
  - Si ha ingresado al menos una cuota integra se plantea un plan de pagos al cliente.
  - De lo contrario se inician los trámites para presentar demanda.
  - Fecha de próxima gestión: 1 mes.
- AL TERCER MES DE LA ENTRADA EN MORA (siete cuotas impagadas):
  - Si ha ingresado al menos una cuota integra se plantea un plan de pagos al cliente.
  - De lo contrario se inician los trámites para la liquidación del préstamo, comienzo de la demanda y demás tareas y actuaciones correspondientes para la presentación de la demanda.

Etapa prejudicial, inicio de reclamación judicial

Si las gestiones anteriores han resultado estériles entonces con carácter inmediato se procede a preparar toda la documentación para iniciar los trámites judiciales.

5. Procesos de gestión de fallidos

La unidad de gestión de fallidos tiene como finalidad específica la gestión/recuperación de todos los asuntos calificados como fallidos definitivos en el Grupo.

Re: BBVA RMBS 2, Fondo de Titulización de Activos

Estimado Señor Masiá Vicente:

Fitch Ratings España, S.A. asigna las calificaciones preliminares siguientes a los bonos emitidos por BBVA RMBS 2, Fondo de Titulización de Activos. Las calificaciones preliminares son una opinión acerca de la capacidad de BBVA RMBS 2, Fondo de Titulización de Activos respecto al pago puntual de intereses y el pago del principal de los bonos durante la vida de la operación y en todo caso antes del vencimiento legal de la misma en septiembre de 2050 (definido como "Fecha de Vencimiento Final" en el folleto), conforme a las condiciones estipuladas en los documentos. Los documentos permiten el diferimiento del pago de intereses de las Series B y C en ciertas circunstancias. Esto implica que los intereses podrían no ser recibidos sobre estos bonos por un período de tiempo si se alcanza el trigger de diferimiento y sin causar un evento de incumplimiento de pago de los bonos.

Bonos de Titulización de Activos Serie A1:	**950.000.000**	**euros**	**AAA**
Bonos de Titulización de Activos Serie A2:	**2.400.000.000**	**euros**	**AAA**
Bonos de Titulización de Activos Serie A3:	**387.500.000**	**euros**	**AAA**
Bonos de Titulización de Activos Serie A4:	**1.050.000.000**	**euros**	**AAA**
Bonos de Titulización de Activos Serie B:	**112.500.000**	**euros**	**A+**
Bonos de Titulización de Activos Serie C:	**100.000.000**	**euros**	**BBB+**

Las calificaciones preliminares asignadas por Fitch Ratings España, S.A. se basan en los documentos e información proporcionados por el emisor, sus expertos y agentes. La asignación de las calificaciones preliminares como finales está sujeta a la recepción de los documentos finales. Fitch Ratings España, S.A. no audita ni comprueba la veracidad o exactitud de la citada información.

Las calificaciones no constituyen una recomendación de adquirir, vender o conservar los bonos. Tampoco constituyen un análisis sobre la adecuación del precio de mercado, la adecuación de los bonos para un inversor en particular, la exención tributaria o la naturaleza imponible de los pagos realizados en relación con los bonos.
