Fitch Ratings-Madrid/London-05 December 2014: Fitch Ratings has upgraded BBVA Consumo 1 FTA and BBVA Consumo 2 FTA's class C notes and affirmed the class B notes, as follows:

BBVA Consumo 1 FTA

BBVA Consumo 2 FTA

EUR13.4m class B: affirmed at 'AA+sf'; Outlook Stable

EUR42.8m class C upgraded to 'Asf' from 'BBB+sf'; Outlook Stable

The transactions are securitisations of consumer loans. Both transactions consist of receivables granted to Spanish end consumers, originated by BBVA SA (A-/Stable/F2), which is also acting as the servicer. Both transactions are at the end of their lives with pool factors at around 3%.

KEY RATING DRIVERS

The rating actions reflect the stable performance, fully funded reserve funds and build up of credit enhancement due to transaction deleveraging. Credit enhancement for senior notes are 103% for BBVA Consumo 1 and 118% for BBVA Consumo 2. The junior notes are also benefiting from high credit enhancement at 47% for BBVA Consumo 1 and 39% for BBVA Consumo 2.

BBVA Consumo 1's class A notes were paid in full in October 2014 while BBVA Consumo 2 Class A notes were paid in full in September 2014.

The class B notes are capped at 'AA+sf', the maximum achievable rating level for structured finance transactions in Spain. The junior notes' ratings in both transactions are influenced by the account bank's rating, Societe Generale (A/Negative/F1), which is the single source of subordination for credit enhancement for these tranches.

The affirmation of the Spanish sovereign rating at BBB+/Stable in October 2014 reflected the stabilisation of the Spanish economy. The better prospects on GDP growth together with lower corporate and personal income tax rates in 2015 will prevent from higher delinquencies observed in ABS consumption transactions.
